

ulster™

"GOOD DESIGN CAN AFFORD
ANY PRODUCT VALUE BEYOND
ITS MATERIAL WORTH."

ulster[™]

For many years I have been proud to work for Ulster Carpets, a world renowned manufacturer of axminster carpets and a company which shares and upholds my belief that design is at the very core of our success. In my design role, I see at first-hand how projects develop from concept to realisation. Each finished design in this book depicts that development. You will see how carpet is used to define a space, creating at times a sophisticated contemporary look or at others a timeless elegant feel.

For me, the intriguing and inspiring aspect about hospitality design is that no two jobs are the same and, by embracing our clients' individuality and functional requirements, we create a unique design that harmonises with its surroundings and elevates the interior.

Be inspired by these designs; they are exclusive and the product of our expert knowledge of bespoke carpet design.

Anthony Hickman
