

MORE FROM WOOD.

Egger UK Sustainability

Over the last **60** years EGGER has been committed to operating sustainably.

Our aim is to produce quality products that are fit for purpose with as little impact as possible on the environment in terms of waste pollution and energy use.

As our founder, Fritz Egger Senior, once said, **“Wood is far too valuable to just throw it away”**.

PEOPLE

Employs over 10,000 people worldwide

800 in the UK

12.5% of our workforce in the UK is, or has been, an EGGER apprentice

Invests in employees through training, career progression and development

Key principles

Quality | Progress | Respect

Health, safety and wellbeing is given the highest priority

PLANTS

and 26 sales office worldwide

20 plants

Over **€500** million in 19/20

Invests in our sites to ensure the most efficient technology is available.

Two UK production plants in Northumberland and Ayrshire

Four Timberpak Ltd Recycling Plants

RESPONSIBLE SOURCING

Dedicated forestry and wood purchasing teams

Long term partnerships with sawmills

Local sourcing (within a 150km radius of a plant)

Certified ISO 38200 (chain of custody of wood and wood-based materials)

Focus on the **future of forestry** to guarantee supply for generations to come

Source wood from **PEFC** and **FSC®** accredited forests

RECYCLING

EGGER UK is the largest user of recycled wood in the industry

EGGER UK owns recycling subsidiary, Timberpak Ltd.

40% of an EGGER chipboard panel is made using recycled wood

Offers the construction, manufacturing and waste industries a solution for waste wood.

For over 20 years Timberpak has sourced EGGER UK's waste wood requirement

PRODUCTION

In 2020/21 EGGER UK produced over **1.1 million m³** of chipboard

Hexham's Energy Plant saves 71,000 tonnes of CO₂ by burning unusable wood residue rather than natural gas

Emissions to air are regulated and routinely monitored

Certified to ISO 14001:2015 ISO 9001:2015 ISO 50001:2018

Waste material generated can be **re-used** either as **raw material** for board or, if no longer suitable, to **fuel the energy plant**

BIODIVERSITY

Planted native trees and wild flowers

Installed nest boxes for **House Martins & Sand Martins**

Annual visits from nesting **Oyster Catchers**

Two bee hives are home to **100,000** bees

Sustainable water systems **cleanse surface water** before being released into the local rivers

PRODUCTS

In the UK we produce:

- Chipboard
- Melamine Faced Chipboard
- Structural Chipboard Flooring

Made using recycled wood..... (40%)

by-products from the sawmill..... (40%)

and virgin fibre..... (20%)

All boards are **100%** recyclable and carbon negative

Carbon is locked into the lifetime of a board

EcoFacts, Environmental Product Declarations, Environmental Health Datasheets and Declarations of Performance are available

COMMUNITY

Over the last ten years we have made over **200** donations to local charities

Employees have raised **£80,000** via EGGER Runs

Each plant has a dedicated charity committee

Timberpak Ltd processes approximately **400 tonnes** of waste wood for free that wood recycling social enterprises are unable to make use of
