Welcome to Renray

For the last five decades, customers have turned to Renray to supply high quality healthcare and medical furniture to their care facilities.

We manufacture and assemble all our healthcare furniture in our own purpose built factory in Winsford, Cheshire, as well as in Europe to British Standards. Our products are stylish and comfortable, designed with both you and your residents in mind.

Good design is at the heart of what we do, from chairs in a wide range of upholstery fabrics, tables in various finishes and accessible beds and mattresses. When it comes to soft furnishings, nobody does it quite like Renray.

It is this complete end to end solution that sets us apart.

Sofas & Armchairs

The epitome of opulent living, Renray's newest collection of sofas and armchairs has been designed to embody the glitz and glamour of old Hollywood style. Suited to environments where style and comfort are the overarching ambition.
