### Sustainable healthcare design with Smart-Carpet™ technology

The innovative Una Ground Control range combines stylish carpet with assured footing where it's needed most. Pre-treated with innovative Smart-Carpet™ technology, the collection combats the survivability of microorganisms such as bacteria. This adaptive quality also ensures critical wash and bleach-proof properties, while helping to cushion the effects of a fall and bringing a welcoming home-from-home feeling to patients, clients and residents.

Made with 100% regenerated and regenerable ECONYL® yarn produced from abandoned fishing nets and other industrial waste, a sustainable solution is now attainable for healthcare carpet too. Available in 36 contemporary colours that are structured around three design stories featuring both solid, slightly pixelated and herringbone patterns, this intelligent carpet is the perfect choice for hospitals, clinics and care homes. Una Ground Control comes with a 20 year wear guarantee.

## Superb

### Iconic

### Ideal

#### **Follow The Green Thread**

#### **Indoor Air Comfort Gold**

All our carpets are Indoor Air Comfort Gold certified showing compliance of product emissions with the criteria of many of the voluntary specifications issued by the most relevant ecolabels and similar specifications in the EU. Gold certified products are best-in-class for low emissions, thus good for indoor air quality.

#### The Green Thread

A green thread runs through everything we do. It has for decades and will continue into the future. We believe that every carpet is an opportunity to improve the sustainability of our environment and the wellbeing for people. Read more about The Green Thread at egecarpets.com.

#### 20 year wear guarantee

We're so confident that our collection delivers above and beyond the competition, we're even offering an industry beating 20 year wear guarantee.

#### Terms and conditions

The Una Ground Control collection features three designs Ideal, Iconic and Superb, each available in a range of colours to suit any interior project. Created specifically with Healthcare requirements in mind, we've literally woven our Smart-Carpet™ technology into the fabric of the range, where it adapts to compensate for a myriad requirements.
