WIGWAM™

BY TABLEPLACECHAIRS_

A fun, quirky addition to any agile office or co-working space, designed to be a great statement piece.

The WigWam

The WigWam table with its pleasing simplicity of construction, is a practical and fun addition to any space. Providing a place for impromptu meetings, catch-ups or collaborations with colleagues, the WigWam sits comfortably in a wide range of environments – from co-working spaces to cafés. The strength, affordability and versatility of the product has been key to its success.

THE WIGWAM TABLE

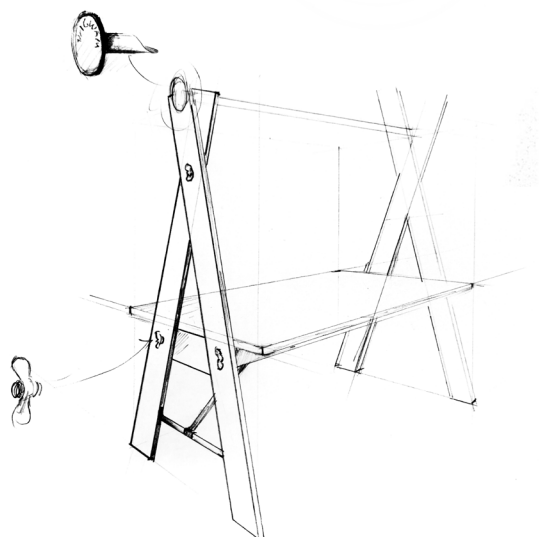

quality design & testing

The WigWam has been designed, manufactured and tested in our workshop in Oxford. All our Solid Oak timber is sourced from sustainably managed forests in Europe (FSC) and all our lacquer is water based.

We are proud to have been awarded the Greener Path Award for achieving Zero Waste to Landfill, as each ton of rotting wood in landfill releases methane equivalent to 600 kg of CO₂.

Any wood waste is recycled and used to make reclaimed timber, with all profits going to charity.

A choice of sustainable table tops are available: our FSC oak, Smile Plastics recycled plastic or Foreoso recycled wood terrazzo.

Smile Plastics

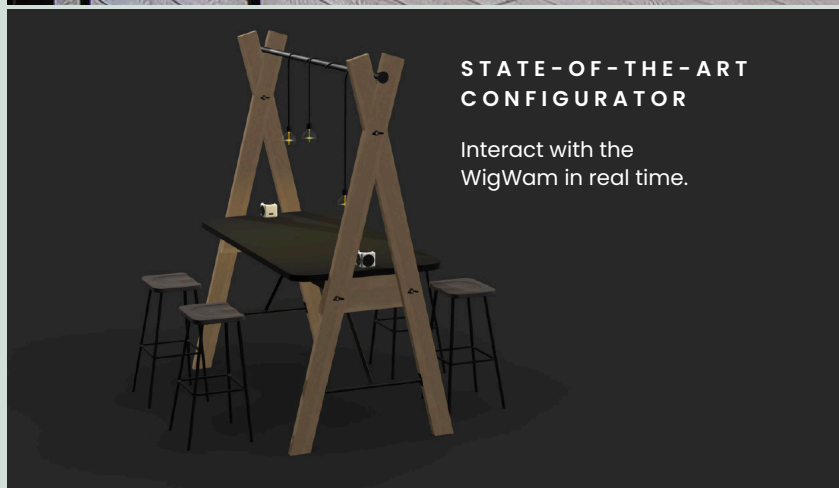

FOREOSO®

materials & customisation

The oak frame can be left natural or stained black, as can the oak table top. Other attractive, sustainable table top options are available: choose from Smile Plastics unique, waterproof recycled plastic or Forezzo beautiful, wood waste terrazzo.

Using our state-of-the-art product configurator, specifiers can interact with the WigWam in real time, choosing and viewing all finishes and product options before ordering. The chosen product is then available to download (with it's associated specification) for use in presentations and as part of the ordering process.

finishing touches

Added lighting and power points provide perfect flexibility.

Consists of 3x LED light bulbs

Remote light switches

6x power sockets &
4x USB charging points

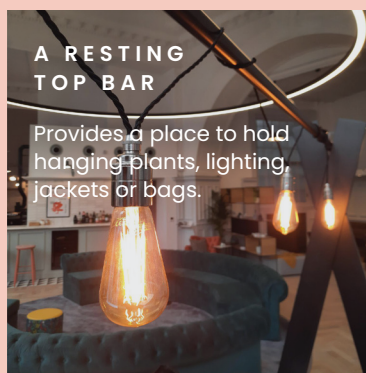

THE WIGWAM TABLE

flexible features

Oversized wing nuts connect a solid oak frame ensuring strength and an informal, industrial aesthetic. A resting top bar protrudes the frame and provides a place to hold hanging plants, jackets or bags. The top bar can be supplied in any RAL colour and the ends are finished with a circular, cut metal WigWam logo.

The sharing table is fitted with six moveable power sockets, four x USB charging points and LED lighting with remote switch. All sockets and charging are supplied territory specific for global markets.*

** Power sockets, charging points and LED lighting with remote switch are all provided with table.*
